

TRE01

TEMPERATURE CONTROLLER

The TRE01 is a compact PID temperature controller for one control circuit with digital alarm output.

Advantages

- + Compact Heat Controller with Alarm Output

Options

- PT100 Temperature Controller

Technical Data

| | |
|--------------------------|---|
| Dimensions: | 150x80x60 mm |
| Temperature Controller: | PID Controller, 1 Controller Circuit |
| Parameterisation: | On the Controller |
| Alarm Output: | 711 Flange Socket Connector |
| Pin Assignment: | 1 - Internal Heating (NO) 2 - Heating Line (NO) 3 - COM |
| Heated Line Connection: | 693 6+Pe Connector |
| Standard Pin Assignment: | 1-L,2-TC+,5-TC-,6-N |
| Power Supply: | 230V/10A, 6m/Schuko |
